

REASON 9 – NO FLOOD FIX IN SIGHT

Please sign the Written Consent form to give owners control of the Ocean Sands Property Owners Association. The time is now! Only 47 more forms required. If you need a form, please click here [Written Consent form](#).

Reason #9: Coastland continues to be *the* obstacle to the stormwater *flooding* solution developed by professional engineers. At the 2019 Annual Meeting, Coastland said they agreed in principal to allow the necessary easement *across* the Open Space. Now over a year later:

- No agreement or movement on the part of Coastland, still obfuscating!
- Coastland requested an annual rent for Open Space greater than the Stormwater District budget!
- Coastland insisted any solution exclude the flow of water from Crown Point into the flood mitigation system
